

Organizational Overview

M1Logic LLC is a U.S.-based software studio and technology services company delivering scoped software, automation, reporting, and implementation support for small businesses, teams, contractors, and public-sector partners. The company focuses on practical systems that reduce manual work, improve operational visibility, and turn repeatable workflows into reliable tools.

Core Capabilities

- Custom software and web application development
- Workflow automation and process modernization
- Data collection, normalization, analytics, and reporting
- Dashboard applications, internal portals, and admin tools
- Systems integration, API development, and operational handoffs
- Infrastructure support, maintenance, and technical troubleshooting

Delivery Approach

- Discovery and workflow mapping before build decisions
- Narrow scope, clear milestones, and usable releases
- Product-minded reuse through repeatable components, documentation, and handoff support
- Low-overhead delivery with direct accountability and rapid iteration

Engagement Types

Prime contractor, subcontractor, fixed-scope build, discovery engagement, implementation support, and ongoing maintenance.

Platforms And Proof Points

- SnapAd: campaign workflow automation platform under the M1Logic umbrella
- Lottometry: data ingestion, trend analysis, and reporting platform
- Internal operating tools for intake review, lead evaluation, dashboards, status reporting, and workflow coordination

Differentiators

- Certified Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Practical implementation partner for small teams, contractors, and operations-heavy organizations
- Strong fit for process-heavy, reporting-heavy, or handoff-heavy work
- Experience combining software product development with client service delivery

Procurement Profile

- 541511 - Custom Computer Programming Services (Primary)
- 541512 - Computer Systems Design Services
- 541519 - Other Computer Related Services
